Focus on service, public leaders told

THE government has urged public leaders to focus on solution-oriented approaches in addressing problems rather than specific problems facing the general public.

Permanent Secretary in the Ministry of Livestock and Fisheries Development, Prof Elisante Ole Gabriel issued the call here during the 12th symposium of the Hombolo-based Local Government Training Institute (LGTI).

He said leaders don't need to be remembered by their position but rather by their contribution towards addressing challenges that the people face in society.

"If we speak of people's de-

velopment, we must also highlight the contribution of our leaders," he said. Prof Gabriel was of the view that leaders must lead the people to be active players in social and economic activities in the community.

"It is leaders who can facilitate a smooth transition of economic growth between individuals, communities and the nation," he said.

But he was cautious that the same leaders must strive to adopt a solution-based approach in addressing challenges the community faces.

He suggested some working approaches, which include organiz-

ing practical public meetings and dialogue that engage all key players in developing workable solutions.

"This is what people will remember you by. It's not your education status, your position or titles," he emphasized.

LGTI Principal, Dr Mpamilwa Madale explained that the institute resolved to organize the symposium to remind both elected and appointed leaders of their responsibilities in providing services to the public.

He said Tanzania recently conducted its general election, and therefore it is high time the newly elected and appointed public lead-

ers go through a formal training that will help them discharge their duties accordingly.

"Our team of academicians had also conducted various research that will help identify challenges facing the public. This is a good start, because the new leaders will be exposed to people's expectations," he said.

Some areas of focus included health, water, infrastructures and education among others. The training institute vowed to offer a token of between 50,000 and 300,000/- to all researchers for helping unearth undocumented challenges facing the people.

KATIBU Mkuu, Wizara ya Mifugo na Uvuvi, Prof. Elisante Ote Gabriel, amewafunda wanafunzi wa Chuo cha Serikali za Mitaa Hombolo jijini Dodoma namna ya kuwa viongozi wanaokidhi matarajio ya Watanzania.

Prof. Gabriel alitoa somo hilo alipokuwa akiwasilisha mada iliyohusu nafasi ya viongozi wa kuchaguliwa katika kuleta maendeleo kwa jamii anayoiongoza kwenye hafla ya kuwatumuku zawadi wanafunzi waliofanya vizuri katika masomo yao na wafanyakazi bora wa chuo hicho.

Alisema katika kipindi ambacho nchi ya Tanzania imeingia katika uchumi wa kati viongozi wanawajibu mkubwa wa kuhakikisha wanakidhi matarajio ya Watanzania.

Prof. Gabriel aliongeza kuwa nchi nyingi na taasisi zimekuwa zikikwama kufikia malengo tarajwa kwa sababu ya kukosa usimamizi mzuri.

"Kuwa na rasilimali ni jambo moja, lakini kusimamia rasilimali hizo ni jambo la muhimu zaidi, taasisi nyingi zimekwama kwa kushindwa kusimamia rasilimali zake ikiwamo rasilimali watu, rasilimali fedha na rasilimali miundombinu," alisema Prof. Gabriel.

Aliupongeza uongozi wa Chuo cha Hombolo kwa kusimamia ajenda ya uongozi huku akisema kuwa elimu hiyo wanayoitoa kwa wanafunzi wa chuo hicho itawasaidia wanafunzi hapo mbeleni watakapokuwa viongozi.

Alisema kiongozi yeyote wa kuchaguliwa au kuteuliwa ili awe kiongozi bora, ni muhimu kuzingatia mambo matatu ambayo ni kufahamu hasa anaowaongoza wanamhitaji gani? Pia kiongozi atambue kuwa hataki kubwa kwa cheo chake bali kwa mchango wake kwa jamii ile anayoiongoza na tatu, awe mtu anayewashirikisha wale anaowaongoza katika kutatua kero zao.

"Washirikishe wale anaowaongoza na ndipo utakapoweza kutatua kero, kiongozi mzuri ni yule anayeona tatizo na kuzibadilisha kuwa fursa, na kwa kufanya hivyo ndipo utaweza kukidhi matarajio ya wale anaowaongoza," alisisitiza Prof. Gabriel.
