

SWIOFish project's time extension granted

By **DAILY NEWS**
Reporter

PLANS are underway for the South West Indian Ocean Fisheries Governance and Shared Growth (SWIOFish) Project to extend its implementation for another year instead of the planned 2021 to compensate the lost time due to effects of the Covid-19 outbreak.

Permanent Secretary in the Ministry of Livestock and Fisheries, Dr Rashid Tamatamah, said this during a video conference convened in Dodoma recently to assess the implementation of the project.

Dr Tamatamah said they had submitted an application to the Ministry

of Finance to extend the implementation time for the project to 2022.

"The World Bank has agreed to the extension of time for the project's goals to be met," said Dr Tamatamah.

According to the PS, since the project took off in 2015 it has continued receiving report from development partners.

"Financiers are quite pleased with the implementation of the project in all areas, including funding and the construction of buildings...it gives us confidence to see that the project is implemented as agreed," noted the PS.

He pointed out that due to Covid-19 some countries had issued travel bans that

was why parties to the project were meeting virtually.

He, however, noted that the World Bank had pledged to support Tanzania to implement its blue economy agenda, citing the ministry's commitment to protect marine resources in further developing fishing activities.

Participants in the project include the Ministry of Livestock and Fisheries, the Ministry of Agriculture, the Ministry of Natural Resource and Tourism and the Deep Sea Fishing Authority.

The SWIOFish Project was established in 2015 by encouraging the protection of marine resources and conserving the coastal ecosystem, including beaches.

HABARI KITAIFA

Wavuvi watakiwa kuzingatia sheria

Na Sabato Kasika

WAVUVI wa mialo ya Busekera, Bwai Kumsoma, visiwa, Iriga na Rukuba, Wilaya Musoma mkoani Mara, wametakiwa kuzingatia sheria, taratibu na kanuni zinazosimamia ivunaji wa rasilimali za ziwa.

Hayo yalisemwa na Ofisa Uvuvi wa Halmashauri ya Musoma, Augustine Costantine, katika ziara ya viongozi wa halmashauri hiyo wa kutembelea wavuvi wa maeneo hayo wenye lengo la kuboresha shughuli za wavuzi.

Miongoni mwao ni Ofisa Maendeleo ya amii wa Halmashauri ya Musoma, Tanna Nyabange, msaidizi wake Nyanjara Majura na viongozi wa Benki ya Equity ambao walihanasisha wavuvi kujiunga na benki hiyo.

Ofisa uvuvi alisema, ni muhimu wavuvi vabadilike na wazingatie sheria, taratibu na kanuni, kwa kuachana na matumizi ya nyavu haramu, na kwamba kila mvuvi awe mlinzi na nwalimu wa mwenzake.

"Umefika wakati nyie wavuvi wenyewe nkomeshe uvuvi haramu, kwa kuzingatia sheria, taratibu na kanuni, hasa kuepuka natumizi ya nyavu mbazo zimepigwa maruuku," alisema Costantine.

Alisema halmashauri itaendelea kutoa elimu kwa wavuvi ili maeneo yote ya uvuvi

yaendeleo kuwa salama na kuwataka wavuvi kutambua umuhimu wa elimu hiyo ili kuepuka kuingia kwenye hatia.

Naye Ofisa Maendeleo ya Jamii, Tanna Nyabange, aliwataka waavuvi kujiunga katika vikundi ili waweze kutekeleza majukumu yao kwa ufanisi na pia kupata mikopo kutoka Halmashauri ya Musoma na taasisi nyingine za fedha. Aidha, katika ziara hiyo ya kutembelea wavuvi hao, viongozi wa Benki ya Equity nao walikuwapo wakihamasisha wavuvi kujiunga na benki hiyo waweze kupata mikopo ya kuboresha shughuli zao.

Mmoja wa viongozi hao, Kemilembe Kabugumila, alisema, wamefanikiwa kuandikisha vikundi 79 vyenye wanachama 1035, ambavyo benki hiyo itanza navyo katika utoaji wa mikopo.

"Kabla ya yote, sisi maafisa wa Benki ya Equity tutaonana kwanza na Mkuu wa Wilaya ya Musoma, Dk. Vincent Anney na Mbunge Prof. Sospeter Muhongo kujadili fursa ya upatikanaji wa mikopo kwa vikundi vya wavuvi wa Musoma Vijijini," alisema Kabugumila.

Kabugumila alisema benki hiyo iko tayari kutoa mikopo kwa vikundi vya wavuvi, na kwamba matayarisho yanaendelea, ikiwamo kuonana kwanza na mkuu wa wilaya na mbunge kuweka mikakati ya kufanikisha jambo hilo.

***TALIRI yapandikiza ng'ombe kupata mbegu bora**

Na Renatha Msungu, MPWAPWA

TAASISI ya Utafiti wa Mifugo nchini (TALIRI), Kituo cha Mpwapwa imepandikiza mimba changa (viini-tete) 34 kwa ng'ombe jike, kama majaribio ya awali ya kituo hicho, yanayoienga kuleta matokeo chanya kwa wafugaji.

Majaribio hayo yamefanyika baada ya TALIRI Mpwapwa kununua vifaa vyenye thamani ya Sh. milioni 400 vilivyotolewa na serikali kupitia Tume ya Taifa ya Sayansi na Teknolojia (COSTECH).

Mtafiti Kabuni Thomas, alisema hayo wakati akieleza hatua za awali za mradi wa uzalishaji mbegu bora za madume ya ng'ombe ambazo zitatumika kupanda kwa majike ili kupata ndama walio bora.

Thomas alisema utafiti wa awali unalenga kuleta mabadiliko kwa wafugaji, kwa sababu unakwenda kuzalisha ndama wenye ubora kwa wakati mmoja ambao watatoa faida kwa wafugaji watakapoanza kutoa maziwa.

"Teknolojia hii ni nzuri sana kama itatumiwa na wafugaji baada ya matokeo ya majaribio kutoka, wafugaji watanufaika ikiwamo kuinuka kiuchumi kutokana na kuwa na mifugo bora yenye uhakika wa kutoa maziwa kwa wingi," alisema Thomas.

Hata hivyo, alisema pamoja na kusubiri matokeo ya utafiti huo wanaiomba COSTECH kuendelea kuwapa sapoti ya fedha za mafunzo ya kuwajengea uwezo wataalamu wa uzalishaji mbegu za viini tete ambao watasambazwa katika vituo mbalimbali ili kuendesha programu hiyo ya TALIRI Mpwapwa.

"Kuendesha mafunzo kuongeza uwezo kwa wataalamu kunahitaji fedha na hiyo ni changamoto kwetu tunaomba COSTECH wasichoke kutufadhili ili tuendelee kuongeza wataalamu wa kuzalisha viini tete," alisema Thomas.

Akielezea umuhimu wa wafugaji kutumia teknolojia ya uzalishaji mbegu bora za madume alisema itawapa faida kubwa ya uzalishaji maziwa, pia watakuwa na uhakika na kiwango cha maziwa kinachokamuliwa kwa siku, tofauti na anayetumia teknolojia ya asili.

Naye msimamizi wa Idara ya utafiti wa ng'ombe, Deogratius Masao, alisema teknolojia hii ikiwafikia walengwa muhimu itasaidia kuboresha mifugo yote ya asili kuibadilisha kuwa bora kutokana na kutumia mbegu bora za madume.

Alisema teknolojia hiyo ikipelekwa kwa jamii ya wafugaji itachangia kwa kiasi kikubwa kuwabadilisha wafugaji hao kuinuka kiuchumi.

Alisema kuna halmashauri nyingine tayari zimeanza na kuonyesha matokeo chanya katika baadhi ya vijiji ambavyo walipewa idadi ya ng'ombe dume ambao bora.

Serikali yawatoa hofu wanafunzi kuhusu mikopo

Alfred Zacharia, Mwananchi
azacharia@the-radioweb.com

Dar es Salaam. Serikali imewaondoa hofu wanafunzi wa elimu ya juu kuhusu changamoto zilizoopo kuhusu mikopo na huduma ya bima ya afya katika vyuo. Jumuiya ya Wanafunzi wa Vyuo vya Elimu ya Juu (Tahiti) katika mkutano wake mkuu wa maraka ilitambua kupungua kwa mikopo ya wanafunzi kutokana na hirifu za kintandao katika mifumo yenye malipo ya fedha hizo na ualewa malipo wa wanafunzi juu ya mifumo mpya wa uandikishaji na malipo wa Shirika la Bima la Afya (CRIF).
