HABARI LEO. UK 8. Washauriwa kufuga samaki kwa vizimba

**Na Suleiman Shagata,
Mwanza**

VIJANA wametakiwa kuchangamkia fursa ya uchumi wa buluu kwa kuanzisha ufugaji wa samaki kwa njia ya vizimba kwa kutumia uwepo wa Ziwa Victoria katika eneo lao.

Wito huo ulitolewa hivi karibuni jijini Mwanza na Katibu Tawala Msaidizi Mkoa wa Mwanza, Emil Kasagala kwa kusema kuwa mkoa huo umedhamiria kutekeleza mpango wa tatu wa maendeleo ya taifa ya miaka mitano 2021-2026.

Kasagala alisema mkoa

umebaini wilaya ya Ilemela, Magu, Nyamagana, Misungwi, Buchosa na Ukerewe yapo makundi ya vijana wamewezeshwa elimu ya ufugaji wa vizimba.

Alisema lengo la mradi huo ni kuongeza uzalishaji wa samaki, kusaidia upatikanaji wa ajira, kuongeza lishe na

kupunguza utegemezi wa upatikanaji wa samaki kwa njia ya uvuvi.

Mbunge wa Viti Maalumu kundi la vijana mkoani Mwanza, Mwasi Kamani aliwataka vijana kutumia fursa ya Ziwa Victoria kujiletea maendeleo kwa kuanzisha ufugaji wa vizimba.

Aliomba taasisi zinazosimamia Ziwa Victoria kupunguza vikwazo vya kutumia rasilimali ndani ya ziwa hilo kuwezesha makundi ya vijana kunufaika na fursa ya uchumi wa buluu. Kamani alisema kuwa vijana wanahitaji kufanya biashara ya kusafirisha nje ya nchi samaki kwa ajili ya

kuza bidhaa hiyo ili wapate mafanikio makubwa.

Aliomba serikali kujenga mazingira mazuri ya upatikanaji wa mitaji kwa ajili ya kuwawezesha vijana kufanya shughuli hiyo ya ufugaji wa samaki wa vizimba kwani ufugaji huo ni wa gharama kubwa.

Ministry establishes four beef cattle fattening incubation hubs

By SAULI GILIARD

THE Ministry of Livestock and Fisheries has established four incubation hubs for training youths how to manage beef cattle fattening projects, as the state eyes to increase employment opportunities through the livestock sector.

The Minister for Livestock and Fisheries, Mr Mashimba Ndaki, revealed this on Wednesday when he was briefing reporters over the project, encouraging the youths to apply for the programme which will be carried in Tanga, Mwanza and Kagera regions.

The minister said it was President Samia Suluhu Hassan's interest to see that the group is empowered for self-employment through livestock keeping given the fact that the sector has so many opportunities to grab but are yet to be exploited.

At the established hubs, the minister said, youths will be trained practically on various activities including animal husbandry to gain skills which will enable them to employ themselves.

"A total of 240 young people, who are set to be enrolled for the programme, will be educated on how to practice commercial breeding..." he noted.

The minister added that commercial breeding would help local industries to get raw materials while the established centres act as a catalyst for revolutionising the sector.

Additionally, Minister Ndaki directed youths, who aspire to join the programme to visit the ministry's website to download forms which should be submitted by September 7, 2022.

According to him, applicants should be citizens of Tanzania, graduates of veterinary training at the certificate, diploma and degree levels from recognised academic institutions.

Furthermore, the applicants should be between 18-30 years of age.
